

The background of the slide features a light blue grid with various 3D-rendered numbers in white and light blue, scattered across the surface. The numbers are of different sizes and orientations, creating a sense of depth and mathematical theme.

How long would it take a Voyageurs wolf to travel to where you live?

1. Look at a map and find Voyageurs National Park.
2. Figure out how many miles it is from Voyageurs National Park to where you live.
3. In the Wolf Expert Virtual Learning Video 2, you learned that a wolf travels at about 5 miles per hour and travels 30 miles in a day.
4. Calculate how many hours or days would it take a Voyageurs wolf to travel to where you live.
